

Application Name

Intan Ag-Kape: Your Coffee Companion

Rationale

These days, coffee isn't just a drink—it's an experience. Whether you're searching for the perfect pour-over, a quiet corner to work, or just a cozy place to catch up with friends, finding the right coffee shop can be a bit of a journey. But what if there were an easier way to find your ideal café?

Intan Ag-Kape (Let's get coffee in English) is designed to do just that. It's a smart, user-friendly app that helps coffee lovers quickly find nearby spots that match their preferences—be it free Wi-Fi, pet-friendly patios, or great ambiance on a rainy day. By combining real-time data, maps, and insights from fellow users, ***Intan Ag-Kape*** makes coffee hunting less of a hassle and more of a delight.

Features

1. **Interactive Coffee Shop Map**: Find nearby coffee spots with ease using Google Maps integration. Filter results based on what matters to you—like outdoor seating, Wi-Fi, or pet access.
2. **Weather-Aware Suggestions**: Raining? ***Intan Ag-Kape*** suggests cozy indoor cafés. Sunny? Explore outdoor-friendly spots with great views.
3. **Café Profiles**: Get the lowdown on each shop—opening hours, must-try drinks, crowd level, and customer reviews—all pulled in via an API.
4. **Bookmark Your Favorites**: Keep track of cafés you love (or want to try next) using Hive or Firebase for fast, local data storage.
5. **Community Reviews and Photos**: Share your own experiences and browse through ratings, comments, and snapshots from other users.
6. **Local Events & Promos**: Stay in the loop with limited-time offers, events like latte art competitions, and new café openings.
7. **Coffee Passport / Check-In System**: Users can "check in" at cafés and earn stamps in a digital coffee passport. After visiting a certain number of unique shops, they unlock badges, discounts, or rewards.
8. **"Mood Brew" Playlist Integration**: Create curated Spotify/YouTube playlists to match your café visit—chill beats for studying, acoustic vibes for relaxing, or energetic tracks for social hangouts. Playlists can change based on time of day and weather.

Target Users

- Coffee enthusiasts eager to explore new brews and cafés.
- Students, freelancers, and remote workers in search of good vibes and reliable Wi-Fi.
- Tourists wanting to discover authentic, lesser-known local coffee spots.
- Café owners looking for a platform to promote their businesses and connect with new customers.

Importance and Novelty of Application

There are plenty of apps that show you what's nearby, but ***Intan Ag-Kape*** goes a step further by focusing entirely on coffee culture. It doesn't just point you to a place that serves caffeine—it helps you find a spot that fits your mood, your lifestyle, and even the weather. With a warm, community-driven design, ***Intan Ag-Kape*** offers a fresh way to connect coffee lovers with the cafés that feel like home. Whether you're in a new city or just around the corner, the perfect cup is just a tap away.
